EMERGENCY MEDICAL RESCUE SLIDE IN SKID UNIT

Universal design to fit most make & model UTV 4x4 and 6x6 vehicles such as the Polaris Ranger, Kubota RTV 900, Kawasaki Mule, John Deere Gator and a host of other off road vehicles.

Designed by Firefighters and Emergency Medical Technicians for use by all public safety agencies. This design puts the patient and the medical care attendant front and center. It is built for rough terrain to be used in all weather situations. Made of aluminum, it is rugged, rust proof and affordable. This emergency rescue skid unit is designed to quickly turn any UTV utility vehicle into a "mini ambulance".

The **MEDLITE™ Transport** is designed to carry one patient, one EMS attendant and assorted emergency gear. The long board is easily attached to the unit using 10 Velcro D loop straps which are included. The attendants seat with seat belt glides on wheels the entire length of the unit and is able to be locked in three different locations along the guide rails to meet any emergency situation. It has 9 cubic feet of enclosed storage under the patient area for medical bags, trauma supplies and oxygen. The unit comes standard with a retractable IV pole. When it comes to off road rescues, safety and patient comfort are the key. Whether you are using it as a medical rescue or for a third passenger during search and rescues, the **MEDLITE™ Transport** slide in skid unit should meet all your needs.
