FOR IMMEDIATE RELEASE:

KIMTEK Expands into Second Facility

Increases production and office space, increases R&D capabilities

Orleans, VT; October 2015—Kimball Johnson, founder and president of KIMTEK Corporation, has announced the purchase of a second facility in Orleans, Vermont where production of the company's full line of MEDLITE® and FIRELITE® transport skid units will continue and expand. Custom designed for ATV, UTV, and pick-up trucks, KIMTEK's slide-in medical, fire and rescue skid units are sold worldwide.

With the addition of the new facility, it triples the amount of space now available for company operations, from what was the original facility in Westmore. The Westmore facility will continue to house office and warehouse space as well as free up additional room to expand the company's new product design and engineering pursuits. The holder of several US patents and retired Westmore Fire Chief, Mr. Johnson says he is pleased the increased space affords KIMTEK greater opportunity to create new designs; specifically prototypes targeting off-road transport needs within the international medical and fire and rescue communities. KIMTEK office headquarters have been relocated to the new Orleans facility.

KIMTEK moved into the new facility, located at 326 Industrial Park Lane, in May of this year. Mr. Johnson stated that an official facility opening and ribbon cutting event was held September 25, 2015 with several dignitaries in attendance including several state dignitaries, many vendor representatives and most notably Paul Darley, CEO and President of W.S. Darley.

About KIMTEK

KIMTEK is the largest producer and marketer of ATV/UTV/Compact pickup truck-specific skid units for public safety agencies in the United States. KIMTEK's FIRELITE fire and rescue skid units and MEDLITE medical skid units are now in service in all fifty states and worldwide including units in service with all four branches of the U.S. Military.

KIMTEK Corporation was founded in 1984 as a research and development company dedicated to advances in life safety technology in the fire sciences. KIMTEK manufactures and markets FIRELITE and MEDLITE Transport skid units for emergency service UTVs and pick-up trucks. For more information, please contact KIMTEK at 888-546-8358 or visit the company's website at www.kimtekresearch.com.# # #
